Where to find Mulch in the City

Adding organic material to your Buckets will increase the health of your bucket soil. There are a few places in the city that you can find organic material, but the easiest is the bins that the city picks up once a week.

The city parks are another place but you will need to know someone there.

You can find leaves on the road on some days.

Tools:

1. DUST MASK
2. Gloves
3. Bags

Material:

1. Leaves and grass clippings found the bins.

Directions:

1. Walk around on the day that the Organic material bins our out.
2. Find bins that have dried leaves and maybe grass clippings.
3. Bag them and take them home.
